Mid-Continent Region

The Monthly publication of the

Western Kansas Division

On the cover: The National Train Show in St. Louis, MO. is in the record books, more coverage inside.

Aug. 1, 2022- Press Release

Ron Rands and Jack, Reece, Caleb & Jon Dwiggins are pleased to announce the purchase of the assets, intellectual property, and inventory of Micro Engineering Inc. by Warbonnet Enterprises L.L.C. of Macon Mo.

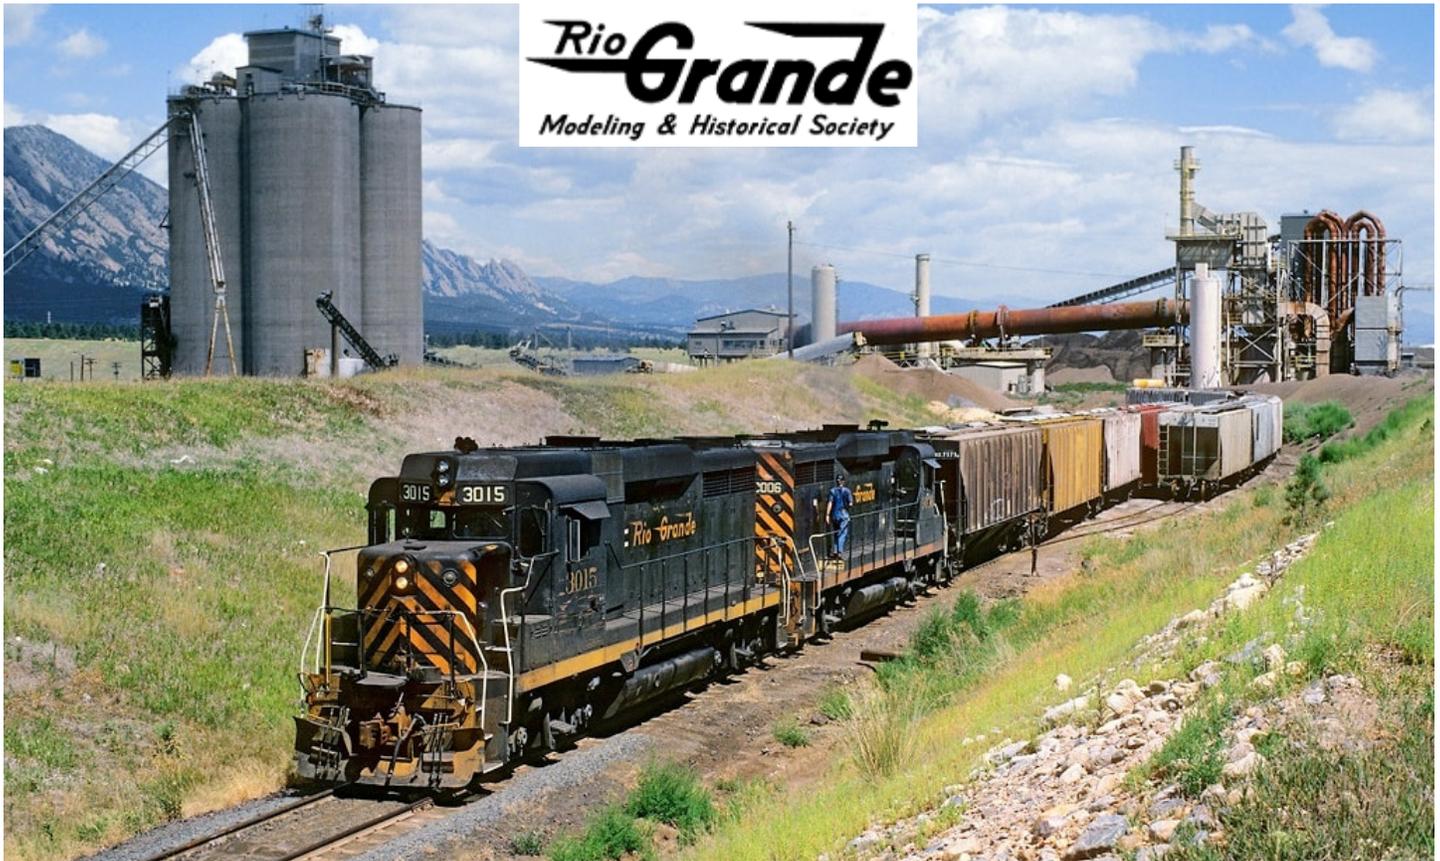

The company will operate under the name of **Micro Engineering Company** and will continue to offer the complete line of Micro Engineering products. New products will be added to the company catalogue in the near future.

Jack Dwiggins, Operations Manager, said “We look forward to continuing to offer high quality, American Made, track and turnout products as well as bridge and building kits to our model railroad clients and business partners.”

Ron Rands said, “My Daughter Donna and myself could not be more pleased with the purchase by the Dwiggins family. In our dealings with Jon and his family over the last several months, it has become obvious they possess the energy and ability to continue Micro’s success. I know Micro Engineering customers will find them very friendly and easy to work with. My father, Bob Rands, would be delighted that the Dwiggins family is purchasing the company he started in 1964 and Donna and I are thrilled to see my father’s legacy continue. We would like to thank all of our customers and friends over the last 58 years for your business and friendship.” The company address, phone numbers and website will remain unchanged.

Micro Engineering Company - 1120 Eagle Road, Fenton, MO 63026 - Voice: 636-349-1112
Fax: 636-349-1180

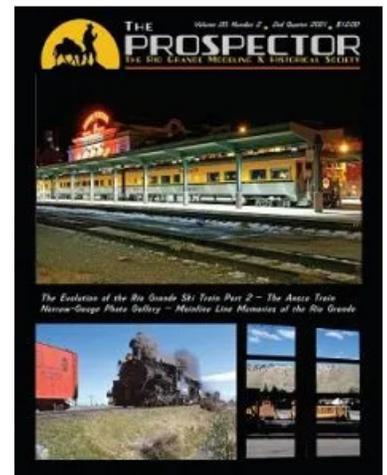

The **Rio Grande Modeling & Historical Society** (RGM&HS) founded in 2001 is a Colorado non-profit corporation whose membership consists of diverse group of historians, collectors, railfans, photographers, modelers and railroad employees who have banded together to share one common interest, the Denver & Rio Grande Western Railroad and its predecessors. The fellowship created by this common interest and the opportunity for networking with members and others are the society's greatest assets. Activities to promote this fellowship are geared to serve the wide variety of interests of its members on almost every facet of the D&RGW as it served as the "Action Road"

All Members receive:

- One year (4 issue) subscription to *The Prospector*, the official magazine of the Society
- A subscription to the Society's e-mail newsletter, the Green Light.
- Members-only emails with advance notice of events, programs, and offers
- Special benefits and features in the Members-only section of the Society's website

WELCOME TO **NRail**TM

The purpose of NRail is to promote N Scale model railroading in all forms, all standards wherever N Scale is present. NRail has been the voice of N Scale model railroading for over 45 years. Starting as NTRAK, it created the first national modular standard, provided the vehicle for N Scale to grow to the second most popular scale in North America, was the birthplace of T-TRAK and today is the home of N Scale model railroading. We welcome all N scalers

**Support N Scale Model Railroading -

Dispatcher to OpSIG Publication No. 2, you're ...
Ready to Roll!

All model railroaders, whether expert or beginner, will find a wealth of useful information in the OpSIG's second publication, **A Compendium of Model Railroad Operations - From Design to Implementation**. A complete guide to all things operations, our latest offering covers every aspect of prototype operations and how to apply them to your model railroad—from design and staffing to yards and paperwork, from communications and signals to dispatching and car forwarding—in 310 full-color pages. Written by ten of your fellow modelers and professionals, **The Compendium** contains more than 350 photos, 120 illustrations, and countless tips, pointers, suggestions, and prototype information to help guide you on your journey. A must for any modeler interested in prototype operations, add it to your library today!

The OpSIG is a 501(c)3 non-profit corporation. For information on how to join the OpSIG, please visit www.opsig.org.

The **Friends of the Burlington Northern Railroad (FOBNR)** historical society was incorporated in the state of Idaho on January 3, 1993. It was chartered to gather, preserve, and share information about the history and the current operations of the Burlington Northern Railroad. The group began with about 140 members absorbed from the Burlington Northern Historical Society. In 1996, following the merger between Burlington Northern and Santa Fe, the group voted to follow the Burlington Northern from 1970 to 1995 and the BNSF from 1995 to the present. Then in 2018 we added coverage of the Montana Rail Link.

The Group's quarterly publication, [The BN Expediter](#), is the voice of the organization that shares news about the group's activities, BN historical data, and current operations of the railroad. It is a 24-page all-color publication and will grow even larger as the society grows and more members contribute more information.

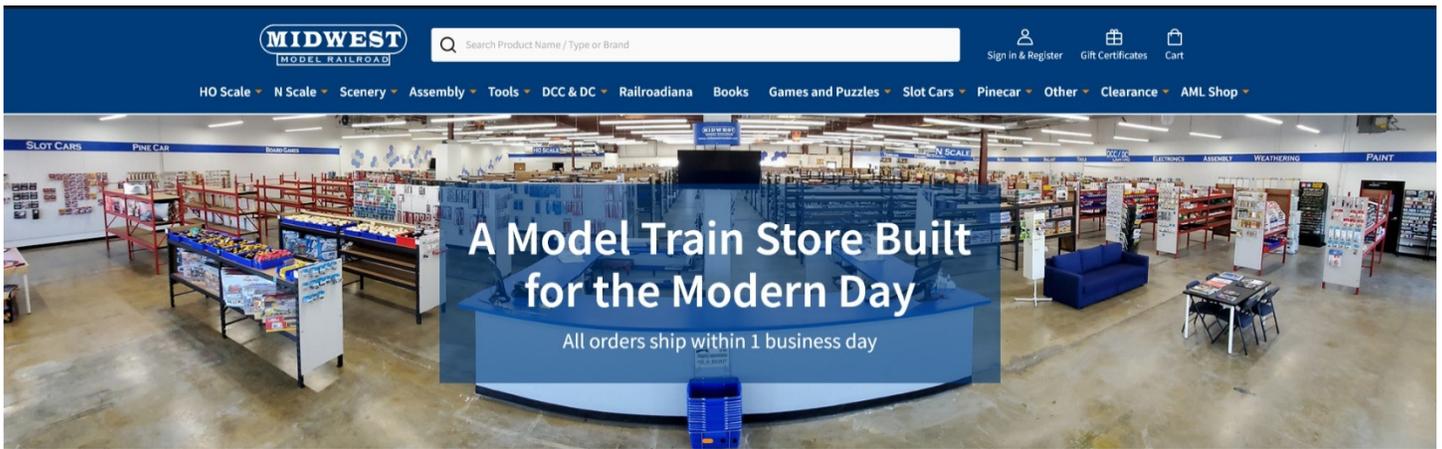

We are over 200 members, from all over the United States and several foreign countries. As with any organization, its true success is measured by its continued, sustained membership. And, to continue its endeavors, the Friends of the Burlington Northern Railroad need member participation and support. Membership dues run per calendar year (January through December). Please consider joining or renewing your [membership](#) in the Friends of the Burlington Northern Railroad.

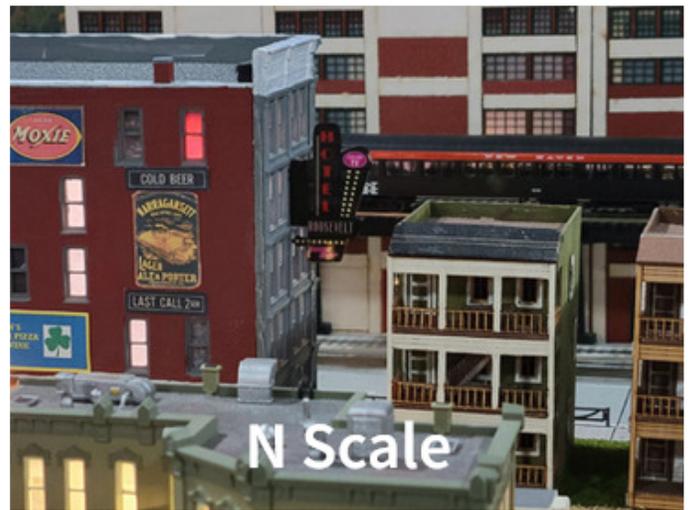

Don't forget to order your 2023 FOBNR calendar

A Brief Stop In Adamsville

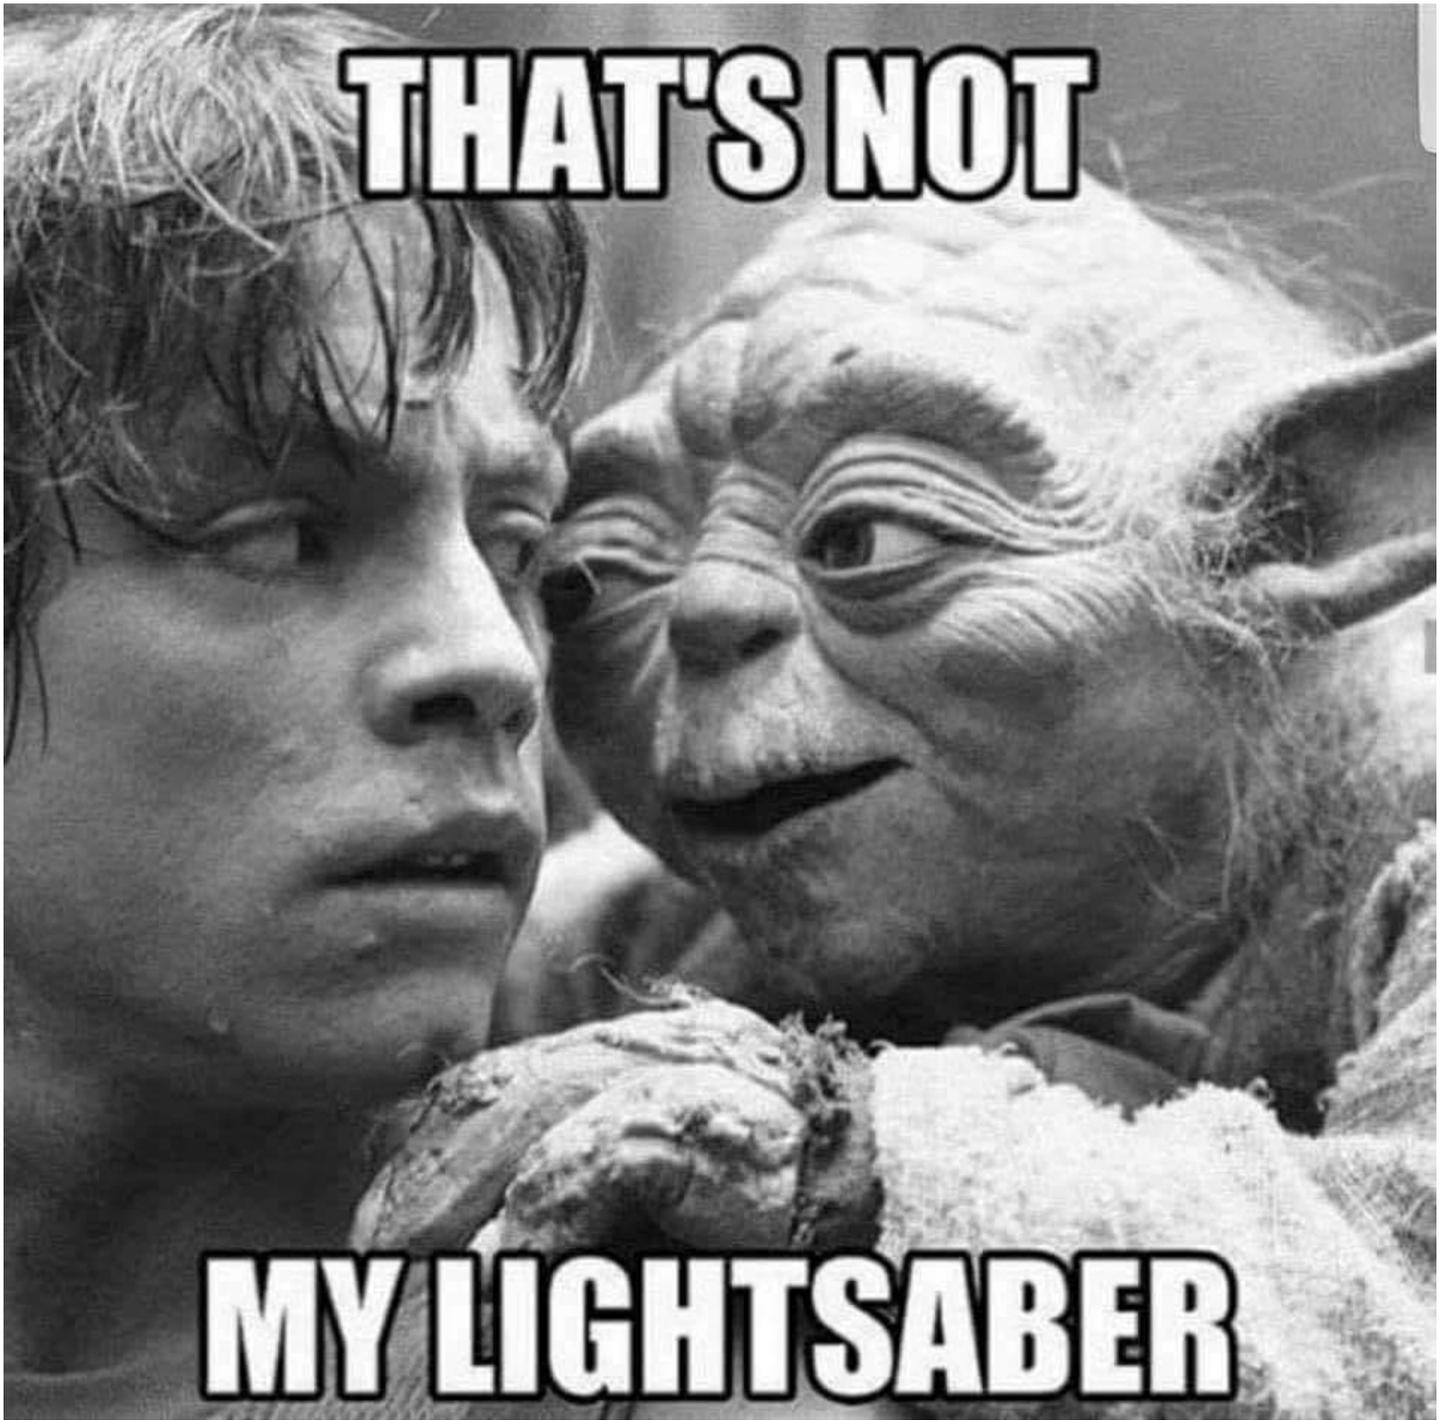

Jim Adams of Lakin, Kansas, a member of the Boot hill Model Railroad Club, is continuing the expansion of his HO-scale layout, "Adamsville". Jim said that section 3 is pretty much complete and ready to connect to section 2 of the layout.

A Brief Stop In Adamsville

Jim sent two photos of his recent work, opposite views of the end of section 3. The additions to this section include: the High School, bus barn, grandstands viewing the football field/track, houses plus an equipment shed and fueling station.

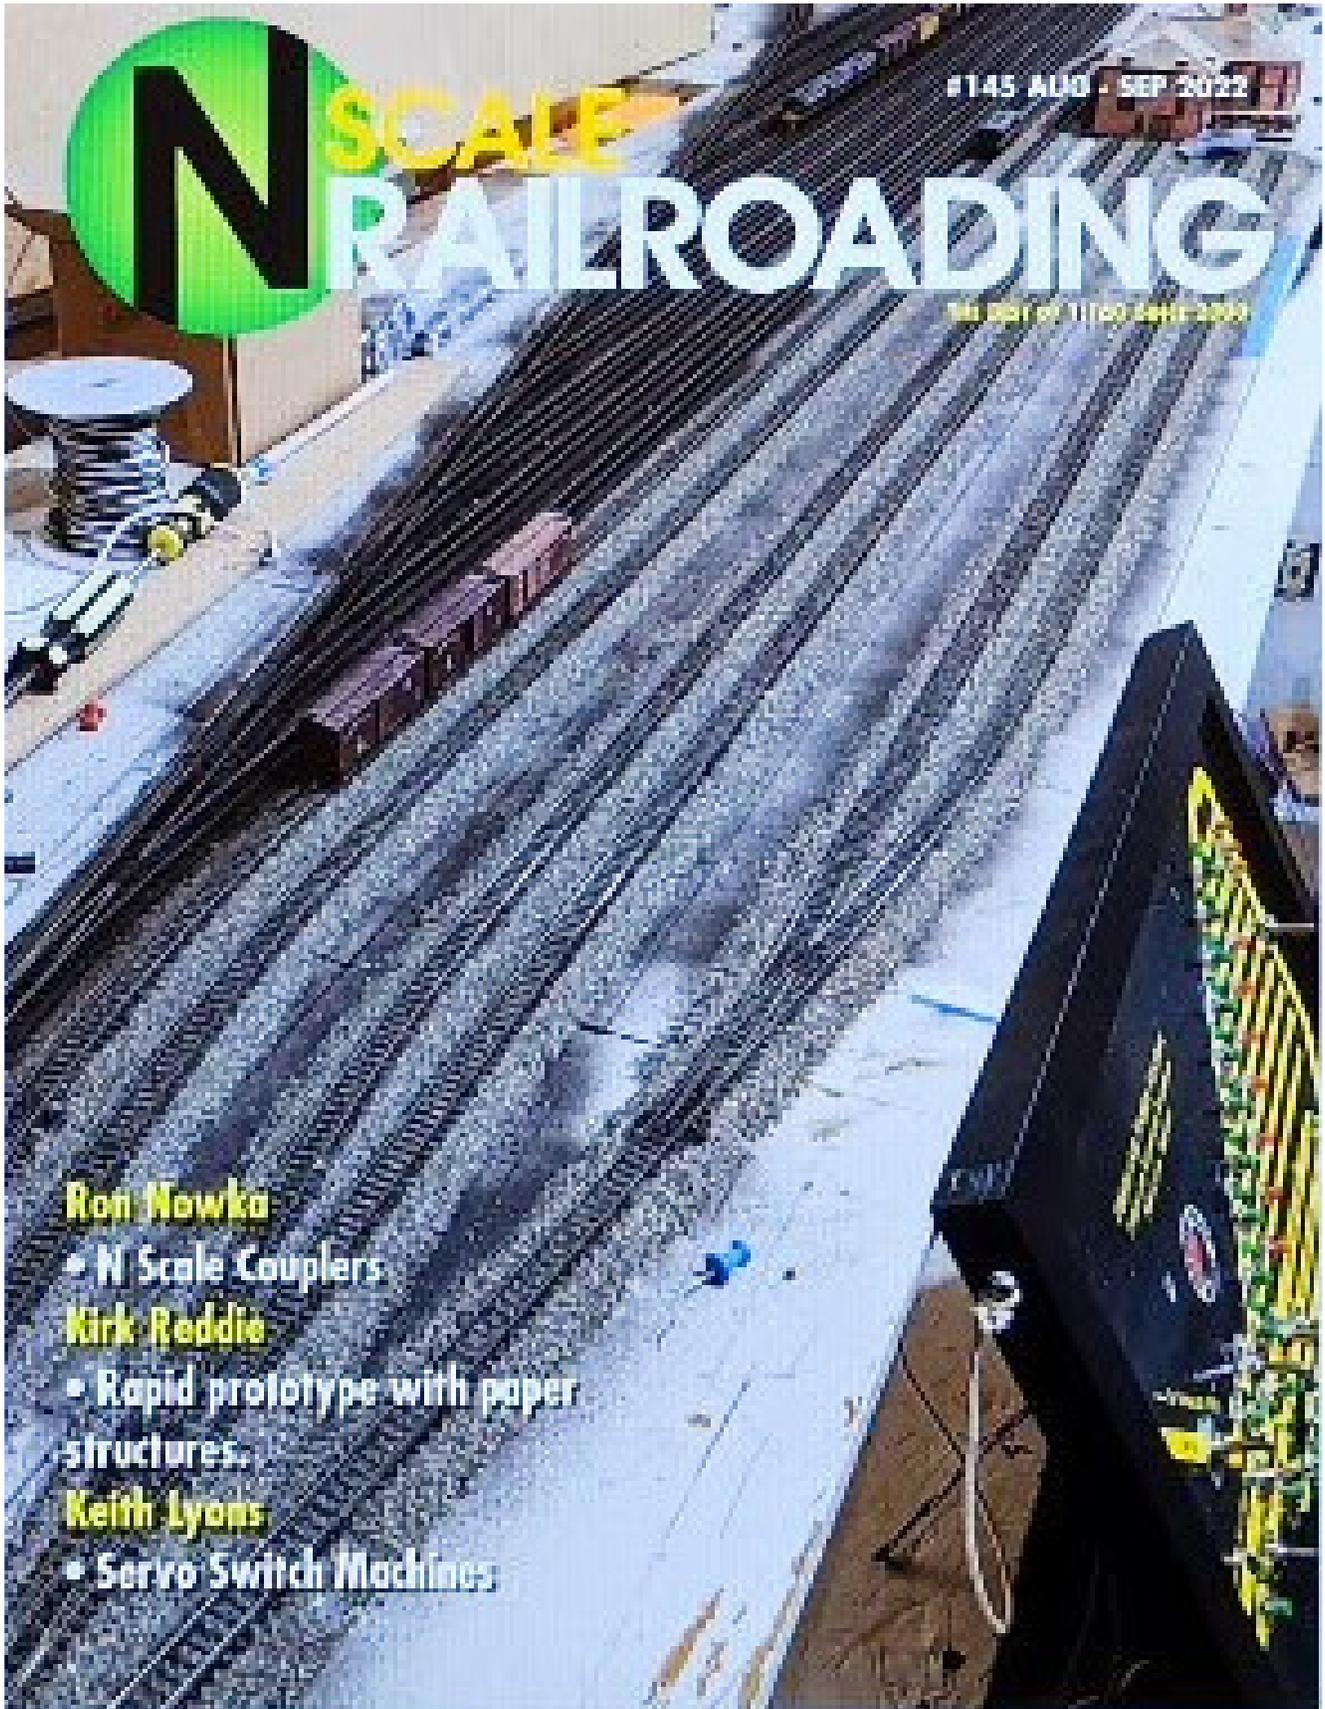

Jim's layout is always a favorite attraction at train shows, in fact, "Adamsville" was presented an award at the North Platte, Nebraska train show earlier this year. We look forward to further updates from Jim.

Welcome to the Union Pacific Historical Society!

Founded in 1984, UPHS is an independent, non-profit organization dedicated to preserving and sharing the history of the Union Pacific Railroad. As of the beginning of 2016, the Society has about 1,900 members. Historians, railfans, employees, and modelers have found the UPHS to be a matchless source of accurate and in-depth material concerning historical operations, traffic, motive power, rolling stock and facilities of the Union Pacific and predecessor companies. Railroad employees, managers, and retirees are welcome.

Publications: The UPHS publishes *The Streamliner*, a professionally produced and beautifully illustrated quarterly journal featuring the finest work of historians and other experts on all aspects of Union Pacific Railroad operations, traffic, management, equipment, and facilities.

We invite you to join the Union Pacific Historical Society! Join with Union Pacific enthusiasts from all over the world by submitting your one-year membership application.

- *Regular membership* (for those in the USA over 25 as well as all those abroad) entitles one to receive four issues of our highly acclaimed quarterly magazine, *The Streamliner*, as well as discounts on selected products in the Company Store.

Click this link for the UPHS website for more information: uphs.org/

The principal purpose of the **Operations Special Interest Group (OPSIG)** is to discuss, develop and disseminate ways of operating model railroads to realistically emulate practices of the prototype.

This includes sharing information on various methods of generating, moving and controlling traffic to heighten the feeling that our models are an active and integral part of the national rail transportation network, serving shippers and consignees throughout the nation.

We also discuss and communicate information about the methods and procedures used by the real railroads and ways of most practically and realistically adapting them to the model world. So, if you like to operate the railroad you've created, this is a place to learn more and find others with similar interests.

We publish a quarterly magazine, *The Dispatcher's Office*, which in addition to containing articles and information on railroad operations (both prototype and model), contains listings of operating layouts, sessions, and events that members are invited to attend. [Back issues are available.](#)

In addition, the OPSIG web site serves as a clearinghouse for publicizing regional operating events and meetings, where layouts are open for guest operations.

We also have a [Facebook](#) page and send out the *Second Section* email newsletter on a regular basis.

SEPTEMBER 2022: It's 1949 on James EuDaly's O scale Chesapeake & Ohio, with a full schedule of freight and passenger trains to move through busy Hinton, West Virginia. James explains his methods for moving so many trains over the road in a simulated overnight period on his detailed model railroad. Alan Mende kitbashes a Bachmann 2-8-0 into a Jersey Central "Camelback" switcher, while Will Lawrence converts a junk box freight car into a model of a rebuilt Canadian National boxcar. Lance Mindheim shares his thoughts on capturing the trackside perspective on your model railroad. Enjoy modeling tips and techniques, product news and reviews, and more in the September issue of Railroad Model Craftsman!

Real Deal

Recently there has been a significant amount of new construction going on the East end of the BNSF Dodge City yard. (left) Next to the yard entrance is a large pile of new railroad ties.

(Below) A crane was spotted in the same area that day.

(Left) The same day there were a couple of flatbed trucks delivering panel track sections and switches.

I asked some MOW workers what was happening, and there are two new switches being installed on the East end. From my observations, it seems that BNSF has picked up two new industries to serve or are expanding operations to existing customers. One switch goes to the ADM milling plant on the North side, and the other is going to a tank farm on the South side. I will keep you updated...

(Right) On August 2nd I spotted a rare visitor working with the local switcher, BNSF 2101, still in BN colors

Real Deal

BNSF 2101 is a EMD GP38-2 and was constructed in November of 1974 as Burlington Northern 2101.

Since I had to get a picture of the left side, I chased it around the yard as they were actively switching. I finally got a picture by bottoming out my car and nearly getting stuck off road, but I kept a cool head and found another way out of the field, no damage done, but I got the shot...

An even better catch was made on September 5th (Labor Day) by Jim McKeel of a pair of Colorado Pacific locomotives in the Dodge City yard.

Jim McKeel Photo

Real Deal

Back on July 26th, I happened to catch some action in the BNSF Dodge City yard. Two crawler cranes were deployed to repair a grain hopper. From the distance (full zoom), I could not see what was being done, but I suspect they were changing out wheel sets or complete trucks on the RIP track.

Real Deal

Todd Skaggs Photo

On July 28th, Todd Skaggs wrote, “This week on Tuesday I drove up to the Moffat Tunnel northwest of Denver and was lucky enough to catch an eastbound BNSF freight on the way up. You’ll notice the train has a UP leader. I attached pictures of the train descending from Tunnel One, then approaching Blue Mountain Crossing, and finally rounding Big Ten Curve.” Thank You Todd for the photos.

The **Santa Fe Railway Historical & Modeling Society** is an independent non-profit corporation devoted to preserving, studying, and sharing information about the former Santa Fe Railway, from its rich history and fascinating operations, to its distinctive equipment and facilities.

Membership Benefits

Regular members receive the Society's quarterly magazine, *The Warbonnet*, the quarterly newsletter, *Running Extra*, and receive a 20% discount on most Society publications and offerings. They also receive access to the Members' Only area of the website, which contains hundreds of documents about the Santa Fe.

Modeler's Resources

Modeler's resources available from the Society include model and product reviews, modeling articles, a series of painting and lettering guides for modelers, and a wide range of reference series books (freight, passenger) and photographs from archival collections.

- Thanks to Robert Simmons for making the [July 2022 issue of the Main Line](#) available!

Welcome to the Mid-Continent Region of the National Model Railroad Association

A 501(c)3 non-profit corporation, MCoR includes the southern half of the state of Iowa, portions of Illinois, and the entire states of Arkansas, Oklahoma, Missouri, Kansas and Nebraska. Since 1990, MCoR's leadership has fostered a strong program of developing local divisions with the purpose of bringing the potential for NMRA activity and involvement to a community near you. From only two divisions in 1990 located in metropolitan areas, MCoR now has well over a dozen divisions and over 900 members.

Upcoming Events

The 2022 General Membership Meeting will be held in Kirkwood, MO during the week of the national convention. Time and date will be updated here as more information becomes available.

I spent most of monday in the car. Drove from the outskirts of Chicago to Fairbury, Nebraska where I spent the night. This morning I met with Deb and Dave in Deshler. Now that I had driven such a long way I did a little shopping now I was there - but just a little. Dave wanted to hire me now Sharon had left but I had to turn him down. I pick up the grandkids from school and kindergarten mondays and tuesdays and it would involve a little too much driving and flying as they live in Copenhagen, Denmark.
I have just checked in at the Super8 in Columbus, Nebraska. I spotted a steakhouse down the road. A steak would not be bad and maybe I can even get a glass of wine 🍷

Welcome to Spring Creek Model Trains

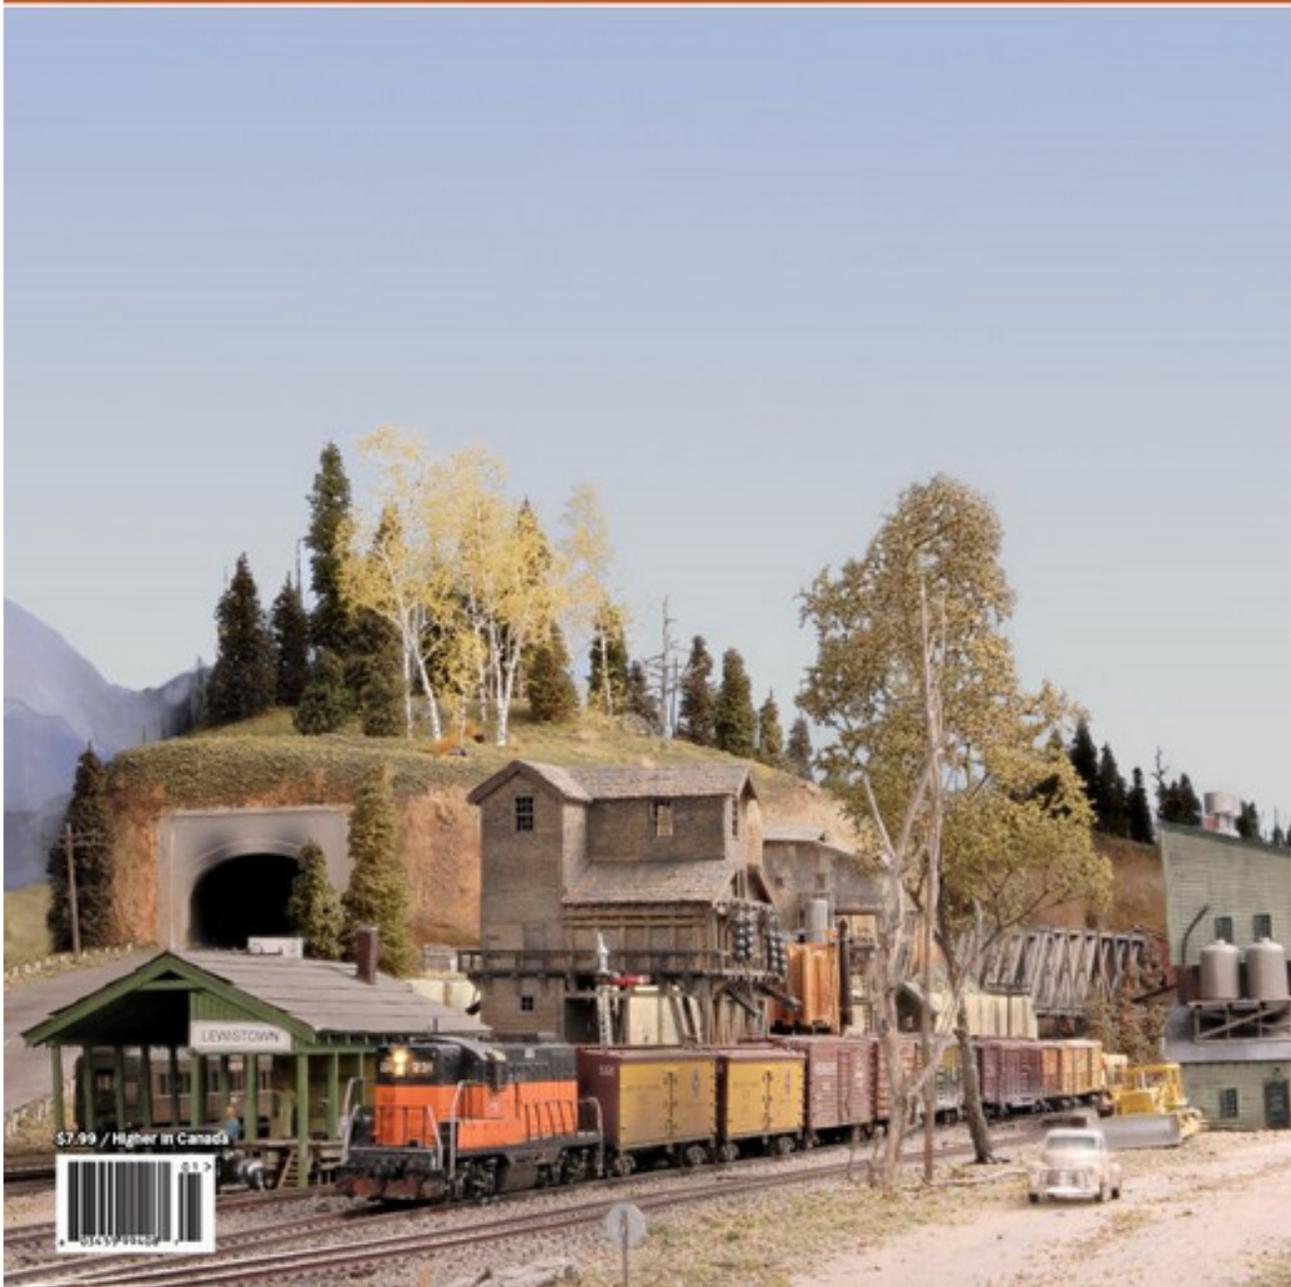

Whether you are one of our “show” regulars or a first-time visitor, we gladly invite you to come on in and browse around. You can follow us on Facebook by joining our page. WKR Update

The scenery crew of the WKR turned their attention to section 7, the Pride Ag Co-Op elevator. (Above) This is a photo of the prototype located in Dodge City, Kansas, notice the logo and placement.

(Right) The crew was able to download the Pride Ag logo and size it, then place it on the model.

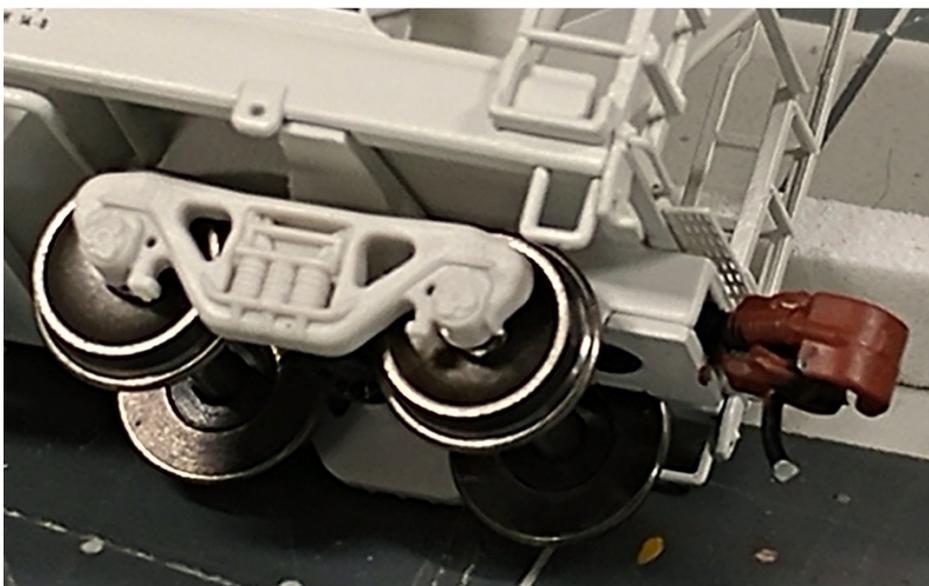

(Left) One of the attempts at properly sizing the logo came out just a bit small, but instead of wasting it, it was decided to apply it to the other side (which isn't correct) since the model can be viewed from either side.

WKR Update

The purchasing office of the WKR acquired five of the new Athearn 2-bay hopper cars to supplement the cement car fleet. (Right) The new cars have arrived on the property.

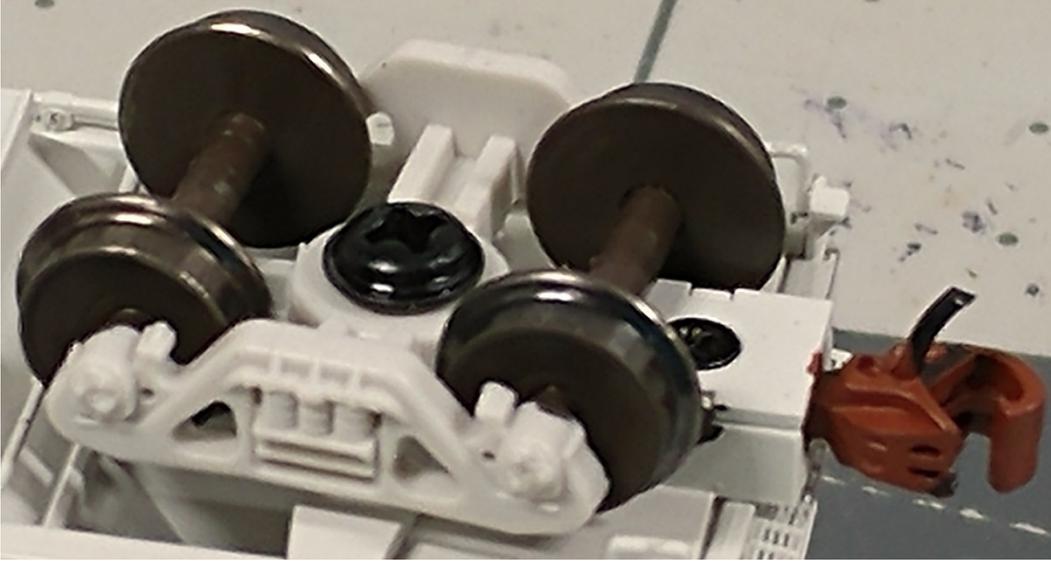

(Below) The as delivered appearance on the car shop work bench except the coupler trip pins have already been trimmed.

(Left) The first modification by the car shop was to paint the coupler “rust” color and trim the trip pins.

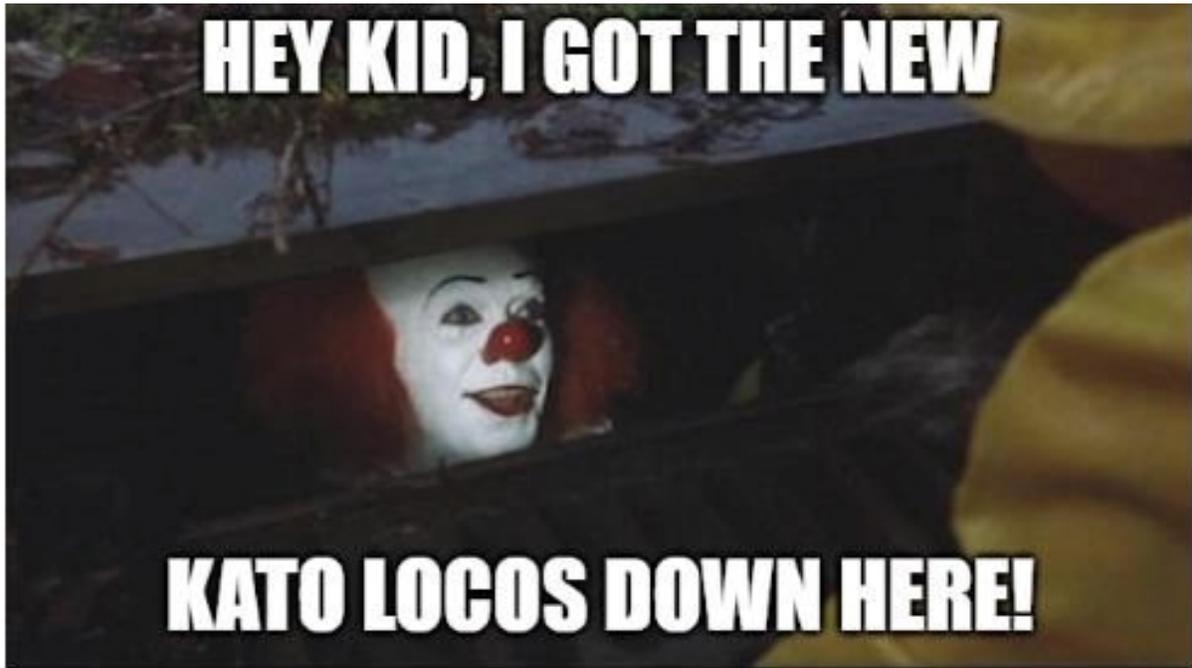

WKR Update

(Left) All the wheel sets had the wheel faces, backs, and axles painted a “Dark Rust” color.

(Both Below) The finished cars on the concrete plant siding, ready for revenue service.
