MODEL TRAIN MEDIA

A **NEW** social media site that's all about **Model Trains**.

The screenshot shows the Facebook profile for the "Mid-Continent Region, NMRA" group. The profile picture is a black tanker car with "Gulf" written on it, pulled by a red locomotive with "FURX" and "5527" on it. The page header includes the "MODEL TRAIN MEDIA" logo, a search bar, and a "Director" profile picture. The group name "Mid-Continent Region, NMRA" is displayed in blue, with a "Group" label and an "Organizer" button. Below the name, it says "Public • Active 17 hours ago" and "Train Shows, discussions and activities of the Mid-Continent Region, part of the National Model Railroad Association". An "Organizer" profile picture is also shown.

You can follow the activities of the **Mid-Continent Region** on their new MTM page. Train Shows, Discussions, projects, How-To articles, videos and more. Check it out today and jump in!

Welcome to the Union Pacific Historical Society!

Founded in 1984, UPHS is an independent, non-profit organization dedicated to preserving and sharing the history of the Union Pacific Railroad. The Society has about 1,900 members. Historians, railfans, employees, and modelers have found the UPHS to be a matchless source of accurate and in-depth material concerning historical operations, traffic, motive power, rolling stock and facilities of the Union Pacific and predecessor companies.

The Streamliner is the official publication of the Union Pacific Historical Society four issues are included with annual membership. Memberships, individual copies of *the Streamliner* and UP calendars may be purchased from the Company Store.

The purpose of **NRail** is to promote N Scale model railroading in all forms, all standards wherever N Scale is present. NRail has been the voice of N Scale model railroading for over 45 years. Starting as NTRAK, it created the first national modular standard, provided the vehicle for N Scale to grow to the second most popular scale in North America, was the birthplace of **T-TRAK** and today is the home of N Scale model railroading. We welcome all N scalers.

HELP WANTED!

NRail is looking for people to help us with our Partner program and we need a new Club liaison. Both jobs require about an hour a week, and are a gateway to becoming an NRail advisor. Interested? Send a note: info@nrail.org and tell us which position in which you are interested. Have questions? No problem, just send us an email at the same address, info@nrail.org and we'll get back to you as quickly as we can. Yes, both jobs are open right now.

Membership in NRail includes:

- One year of the Newsletter (6 issues).
- Monthly ZoomTRAK live broadcasts.
- Support of the National N Scale layouts at major shows.
- Access to the Members Only section of NRail.org (including over 270 issues of the Newsletter).
- Discount on merchandise in the [NRail store](#).

EC26 N-Scale Meet

Start	Monday, July 20, 2026
End	Friday, July 24, 2026
Location	Elk City, Ok

New Look!

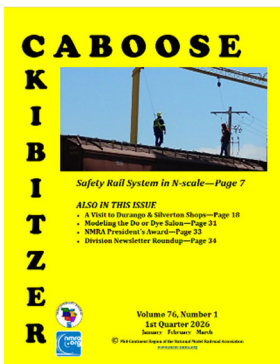

Everything you need to know about the Mid-Continent Region but were afraid to ask can be found on the MCoR website thanks to Ryan Moats.

MCoR 2026 Convention

July 23 – 25 2026

Collinsville, Illinois

The 2026 Mid-Continent Region convention will be held at the Collinsville Convention Center in Collinsville, IL from July 23-25. This year's convention is a **joint convention** with the **RPM Meet!** One registration gets you into ALL the RPM events and the MCoR events including our Contest and Saturday Night Banquet! There will be lots of vendors at the Collinsville Convention Center ready to sell you all the part items you are looking for! There will be clinics and contests. Find all the details on the MCoR website.

The 2026 First Quarter issue of the [Caboose Kibitzer](#) is available. Thanks to Patrick Hiatte for his work and please send him your articles!

Our mission is to preserve and promote the heritage of the **Missouri Pacific Railroad** and its affiliates. This includes the Texas & Pacific, Chicago & Eastern Illinois, Kansas Oklahoma & Gulf, Alton & Southern and many other roads that were part of the MP family.

The MPHS publishes a quarterly magazine called *The Eagle*.

All members receive a copy of this magazine as part of their membership dues. New members will receive a copy of the current issue as soon as their dues have been received.

The Eagle is a full-color magazine printed on high-quality, heavy paper.

Copies of this magazine can be purchased through our Company Store.

A comprehensive index of The Eagle issues is available.

Plan to attend our 2026 Annual Convention
October 8th – 11th
In Independence, Missouri

Click here for the MPHS website: <https://mopac.org/>

Midwest Model Railroad began in 2011 with a simple goal: make the hobby more accessible, affordable, and enjoyable for everyone. We always focus on operating efficiently and keeping our operating costs low to pass on those savings to you, the hobby's best customers.

Cincinnati Division 7 of the **MCR** still has Limited Edition, Accurail, 2200 Series ACF 2-Bay Covered Hoppers in an N&W repaint/patch scheme available.

They are available in three road numbers. Pricing and ordering information can be found on Division 7's web page here: <https://division7mid-centralregionnmra.godaddysites.com/...>

N&W HC-46 ACF 2-Bay Covered Hopper

Using Accurail's 2200 Series ACF 2-Bay Covered Hopper as the basis, we are offering it in a Norfolk & Western repaint scheme. These cars are N&W class HC-46 and are from an original batch of fifty built in 1966 by ACF with the Round Herald paint scheme. Subsequently some cars went through a general maintenance program and were repainted in the block N&W livery. Photos were found showing at least three of these cars (road numbers 170753, 170768 and 170794) were reweighed at some later date because that area is "patched out" on the car with the new data displayed. Those same photos place these three cars as being in service in 1992 and 2004. It is these three, highly unique, road numbers that Cincinnati Division 7 is now offering for sale as limited edition kits.

Pricing is \$25 per car, or a 3-car set at \$70. Shipping (via USPS Priority) is \$10.40 for one car and \$18.40 for two or more cars. Ohio residents, please add 7.8% sales tax on the total price of the kits and the shipping/handling fee. Customers outside the USA, please [contact us](#) for shipping arrangements and charges.

To order, please send **your email and phone** information along with a **check or money order** in US dollars, payable to Cincinnati Division 7, MCR, NMRA, to:

Cincinnati Division 7 Car Projects

toes for awhile**

WKR Update

(Left) In March, the WKR Purchasing Department was convinced to add to the reefer collection as Atlas came out with some new names.

Gunderson Rail Services developed high-capacity cryogenic reefer cars in the 1980s in collaboration with Cryo-Trans to address failures in traditional rail refrigeration with the first **CRYX** car (No. 1200) built in 1987. These cars used for cooling and transporting frozen goods but were mostly converted to mechanical systems by 2003 due to rising costs.

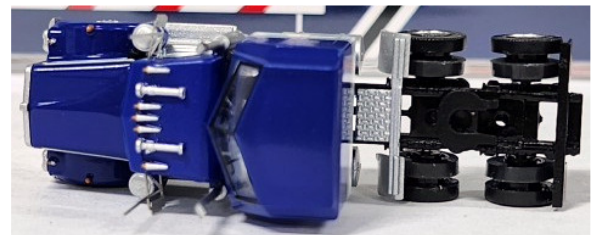

- **Origins (Mid-1980s):** Cryo-Trans sought to address the unreliable, aging mechanical reefer fleet, partnering with Gunderson to develop cars using cryogenic, **carbon-dioxide-based cooling**.
- **Design & Usage:** These were high-capacity cars designed for frozen food, notably used by McDonald's to transport frozen French fries.
- **Conversion (2000s):** Due to high costs, Cryo-Trans converted most of its fleet to mechanical refrigeration between 2000 and 2003, with some units later rebuilt with new mechanical, high-capacity, 82-foot designs.
- **Modern Era:** In 2021, Cryo-Trans was acquired by Lineage Logistics, continuing to utilize modern refrigerated car technology.

WKR Update

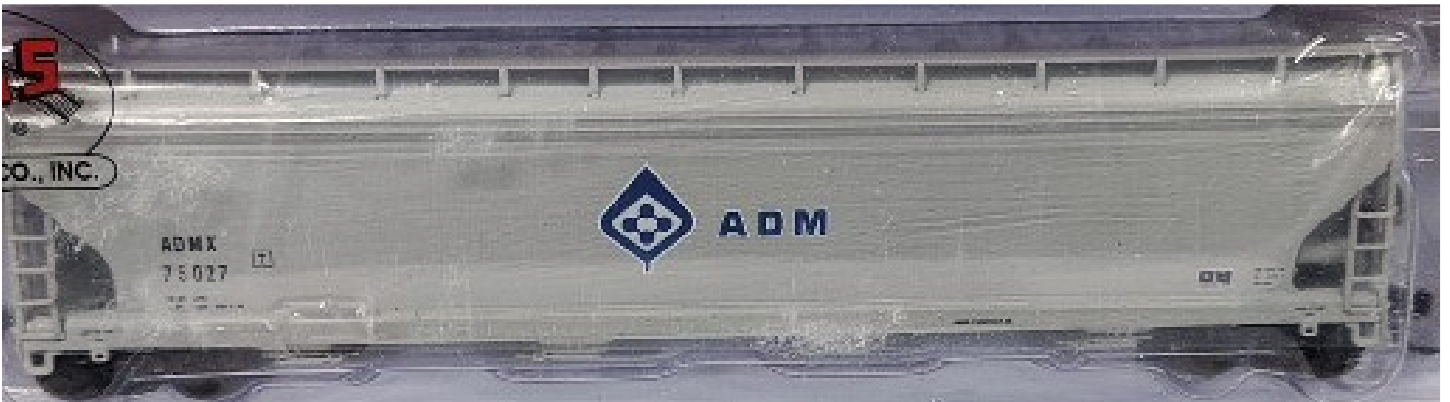

(Right) Once again Trainworx outdid themselves with a new release of Kenworth tractors. Since the WKR has a large grain elevator to scenic plus years ago we purchased multiple 3-D printed grain trailers, we needed more tractors.

49044
Kenworth W900
Aerodyne Seminole
Blue and White

Although we don't need the tractors right now, a painful lesson in N-scale is if you don't purchase them when first offered, they won't be there when you come back, so we have been stocking-up on tractors a little at a time.

WKR Update

(Above) During the Garden City Train Show in March, we would like to support the vendors as much as possible. The Purchasing Department had depleted funds with multiple locomotive purchases earlier, but they signed-off on a couple of Atlas grain hoppers.

(Below) The WKR also snagged a couple Atlas tank cars for use with Agridyne operations.

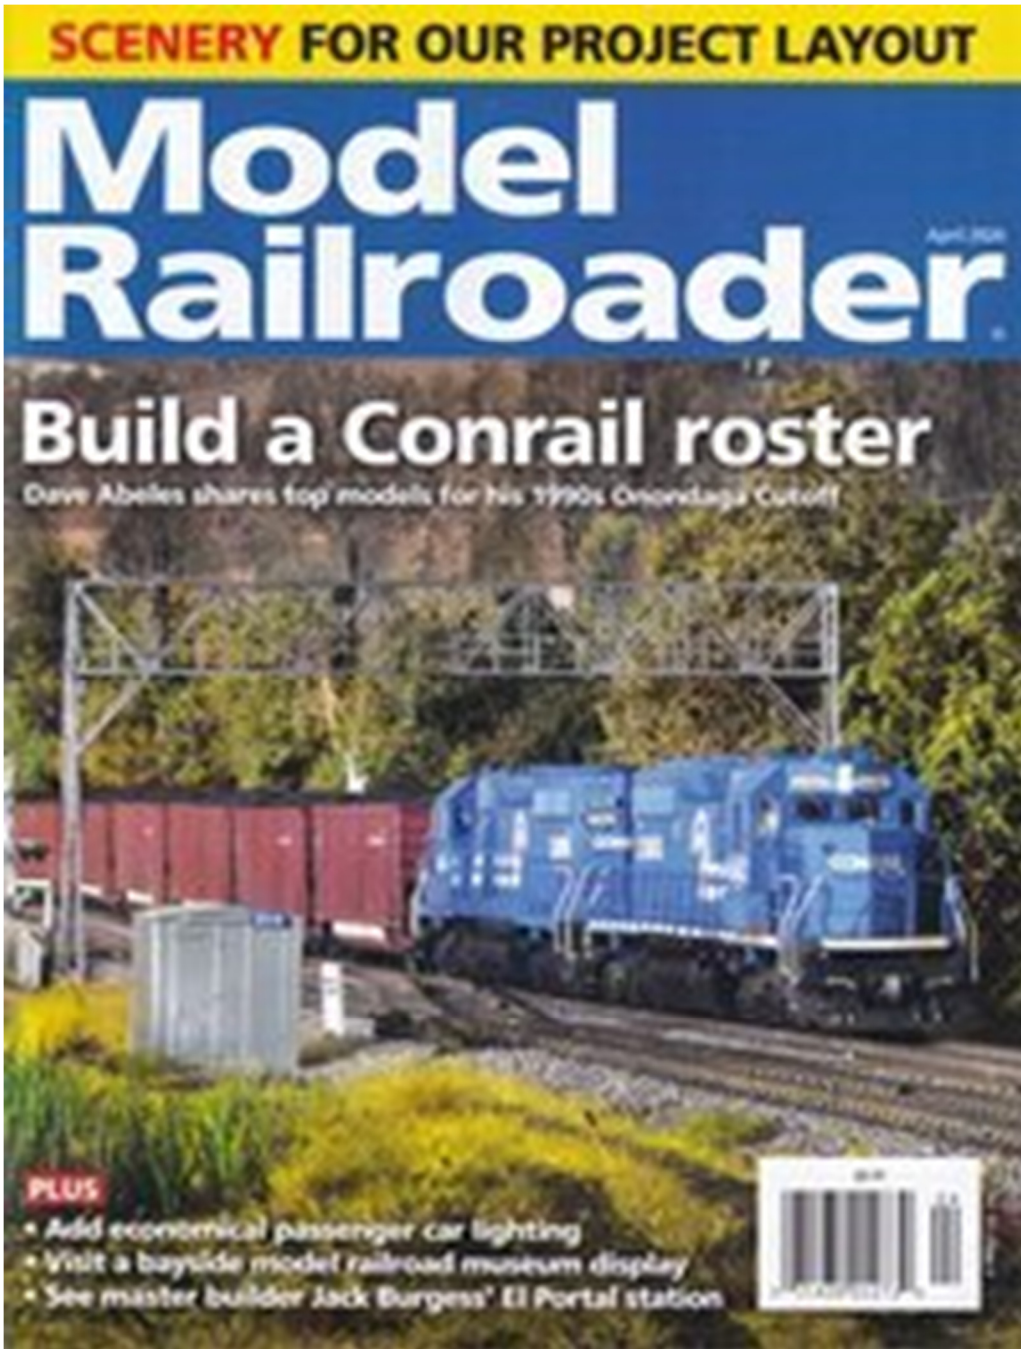

WKR Update

Life would be boring without some problems to overcome, so chance provided some. While maneuvering the ambulance in the shop to get lined-up with the access doors to begin loading, the right-side mirror snagged on the side of the garage door opening and was moved a couple of inches. Now, not being able to see down the side, we tried to maneuver clear of the door but as we pulled forward the outside door handle caught on the door frame and was ripped off.

While the Universe laughed at us, we sought replacement parts. Local locksmiths had no idea what we were talking about, so we sent an e-mail to Horton, the manufacturer of the box. Next day we had a reply, and within a week we had the new replacement parts in-hand. Well Done, Horton!

The **Chicago & North Western Historical Society** was founded in 1973 by a group of Midwestern railfans interested in the C&NW, along with its predecessor and successor roads.

The Society's purpose is to collect, circulate and preserve the history of the C&NW and its predecessor and successor lines; to create and publish a magazine; and to promote fellowship among C&NW fans and Society Members.

It is a non-profit corporation, chartered in the State of Illinois, and welcomes monetary donations and the donation of historic items.

North Western Lines is a quarterly publication, which is considered one of the premier historical publications. Each issue contains current news, feature articles, a photo section, and a combination of rosters, technical information, maps, schedules, and modeling information, depending on the make-up of that issue. A one-year subscription comes with a membership. And members are welcome to submit news items and articles.

Free-mo was developed with the idea that a set of standards focusing on module endplates would enable faithful modeling of prototype trackplans and operations in a modular environment. Free-mo operates like a permanent or sectional layout but still retains its modularity. **Free-mo** layouts are operated with a single track mainline in a point to loop, loop to loop, or point to point. Layout sizes can vary to any size conceivable.

Southern Kansas Free-mo

For the Free-Mo website, click here: <https://free-mo.org/>

The principal purpose of the **Operations Special Interest Group (OPSIG)** is to discuss, develop and disseminate ways of operating model railroads to realistically emulate practices of the prototype. This includes sharing information on various methods of generating and controlling traffic to heighten the feeling that our models are an active and integral part of the national rail transportation network. We also discuss information about the methods and procedures used by the real railroads and ways of realistically adapting them to the model world.

We publish a quarterly magazine, *The Dispatcher's Office*, which in addition to containing articles and information on railroad operations (both prototype and model), contains listings of operating layouts, sessions, and events that members are invited to attend. In addition, the OPSIG web site serves as a clearinghouse for publicizing regional operating events and meetings, where layouts are open for guest operations.

Operations SIG

4.4K followers • 6 following

The principal purpose of the Operations Special Interest Group is to discuss, develop and disseminate ways of operating model railroads to realistically emulate practices of the prototype.

Nonprofit organization

We also have a **Facebook** page and send out the *Second Section* email newsletter on a regular basis.

<https://www.facebook.com/OperationsSIG>

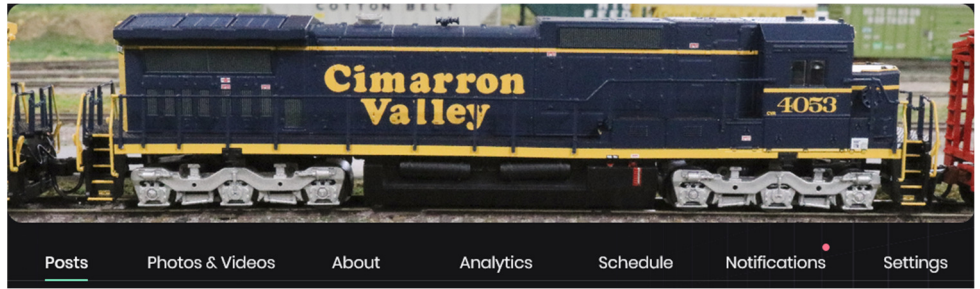

As part of your yearly membership, you'll receive four quarterly issues of *The Dispatcher's Office*, our operations-focused publication. *The Dispatcher's Office* is available as either a digital download or a mailed printed copy. As a print subscriber, you'll also get access to the digital copy. In addition, all members have complete access to 30+ years of our digital back catalog at no additional charge for members of the OpSIG.

Achievement Program

For more details on the new OpSIG Achievement Program, please visit the program website: <https://opsig-ap.org/>

The 2025 Annual Meeting Replay includes an introduction to the program.

Click here for more information: <https://www.opsig.org/>

Follow the activities of the **Western Kansas Division**, NMRA on their **MeWe** page:

Hello, We're David and Debbie, we started our hobby store business in 2000. It has been a lifelong dream to own my own model railroad hobby store. We have grown from a 5' x 10' x 6' trailer to a store and a web-site. We still love doing the week-end "train shows" and we travel throughout the Midwest.

Spring is the perfect season to revitalize your layout and bring new energy to your collection.

Spring Creek Model Trains 25th Anniversary Kadee HO Scale PS-2 2 Bay Covered Hopper

Spring Creek Model Trains offers exclusive [Kadee](#) 2 Bay covered hopper celebrating our 25th year. This model comes in one road number. For more information and to order the exclusive car follow this link.

Rapido Trains N Scale Autoflood 3 Hopper OMAX

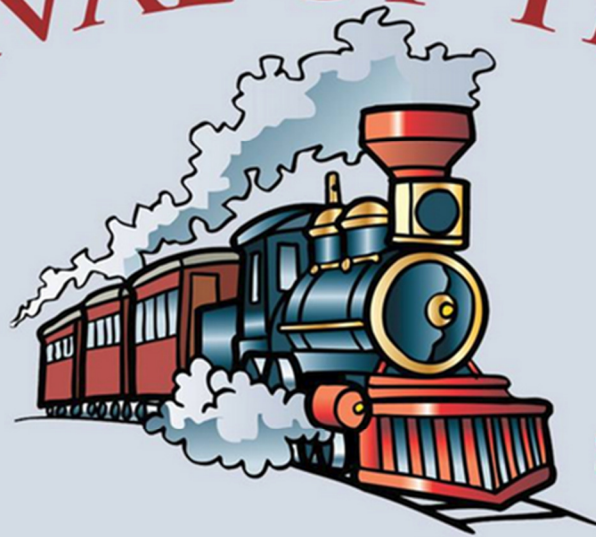

We partnered with [Rapido Trains](#) on a N scale Autoflood 3 hopper in the OMAX paint scheme. We did 12 different numbers. For more information and to order the exclusive car follow this link.
